

Fred Malott

Councillor

I was born in Chatham Ontario and after graduation from high school enlisted in the Canadian Armed Forces in 1974. My career background in the Army was centered in supply and logistics. I had a very successful 25 year career in the military and retired as a Warrant Officer. I left the military and worked at EMCO Plumbing and Heating Distribution Centre as team leader for shipping and receiving for 3 years. I then moved to the Nestle Distribution Centre for a couple of years until the Centre was closed.

In 2004 I transferred my logistics and supply knowledge to working for the Government of Alberta, Forest Protection, Wildfire Management Division, where I worked in the Warehouse and Service Centre. I actively worked at various fire camps and warehouses in Alberta, and also cross trained in warehouse operations in Ontario and British Columbia. I recently retired after 13 years with the forestry division.

I moved to Legal in 1997 while still in the military. It was here that my wife Barb and our sons found our new home after moving many times across the country. We all fell in love with this Town after touring around the area and finding everything it had to offer. After moving here, I found the community and people very inviting and I was introduced to new opportunities for volunteering.

I have been very active with the Legal Lions Club, Legal Curling Club, and the Fete Au Village Committee for the past 18 years. I have held all Committee positions in these clubs during the years and I realize the importance of being a volunteer and how important the clubs and organizations in Town are to our community. Whatever project needs help, our family is always willing to be there.

I look forward to serving the members of our community as a Town Councillor.
